HCIP-Storage V6.0 Exam Outline

Huawei Certification HCIP-Storage V6.0 Certification Exam

Exam Code	H13-624
Exam Name	HCIP-Storage
Exam language	ENU
Question Type	Single Answer, Multiple Answer, True-false Question, Fill in the blank answers, Drag-and-drop question
Exam fees	300 USD
Exam Duration	90 min
Passing score/Total score	600/1000

Exam Content

The HCIP-Storage V6.0 exam covers advanced knowledge of flash storage, data protection, and scale-out storage, including the technical principles, software and hardware architecture, typical application scenarios, and deployment methods of storage products. It also covers virtualization technologies, as well as routine O&M and management of storage systems.

Knowledge Point Percentage

Key Points	Percentage
Flash storage technologies	30%
Data protection technologies	20%
Scale-out storage technologies	30%
Virtualization technologies	10%
Routine storage system O&M	10%

Knowledge points

- Flash storage technologies
  - Data storage portfolio
  - Introduction to flash storage products

  - Deployment of flash storage products
  - Value-added features of flash storage
- Data protection technologies
  - Introduction to data protection products
  - Application scenarios of data protection products
  - Data protection product deployment
- Scale-out storage technologies
  - Ceph technology
  - Introduction to scale-out storage products
  - Scale-out storage product deployment
  - Scale-out storage features
- Virtualization technologies
  - Virtualization technology overview
  - Introduction to typical virtualization software
  - Huawei virtualization software FusionCompute
  - Datacenter Virtualization Solution (DCS)
- Routine storage system O&M
  - Intelligent storage O&M
  - Storage O&M tools
  - Routine storage management
  - Storage system upgrade

NOTE

The test content mentioned in this document provides a general test guide for candidates. Other content not mentioned in this document may also be used in the test.
