Dopo una annata piuttosto piovosa veniva un settembre bello disturbato da qualche pioggia durante la Vendemmia che ha compromesso qualche partita. Alla fine poche masse vendemmiate dopo la pioggia formano il Boca 2019.

Cooler year with less grapes and some problems with deer which destroyed the grapes in spring. Unfortunately the harvest was compromised by some heavy rain periods and we had to pick the grapes earlier to avoid damages. Only the best grapes we let outside in the rain waiting finally to 10 days of good weather risking to loose even more. In the end waiting was right as we could pick less but very good grapes in the end. The wines seem very elegant, crispy and mineral.
