Il desk “**Easy**” è uno dei punti forza dell’azienda. È il prodotto **più versatile** che noi presentiamo al cliente; la sua particolarità infatti, è la capacità di essere costruito ad hoc, a seconda delle richieste presentateci.
Cerchiamo di dare rilievo alla funzionalità del desk e alle sue peculiarità tecniche. La schiena del desk può essere aperta o chiusa: se il lato posteriore non è visto meglio prediligere l’acquisto della schiena aperta in quanto si facilita il cablaggio dei cavi.

The “**Easy**” desk is one of the company’s strong points. It is the **most versatile** product that we present to the customer; its peculiarity, in fact, is the ability to be built ad hoc, depending on the requests presented to us.

We try to highlight the functionality of the desk and its technical peculiarities. The back of the desk can be open or closed: if the back side is not seen, it is better to prefer the purchase of the open back as it facilitates the wiring of the cables.
