

Company Presentation – VenticinqueDieci Winery

About Us

VenticinqueDieci Winery is a small, family-owned winery located in the heart of the Dolomites, in the very North of Italy. We cultivate our vineyards in a unique alpine environment that lends character, freshness, and identity to our wines. Our mission is to **bridge tradition and innovation** — bringing together the legacy of old vines with the sustainability and potential of new resistant varieties.

Our Wines

We focus on the production of **high-altitude Solaris** and a **Cabernet Franc** – two distinct expressions of our land and philosophy.

- **Solaris:** Cultivated at 1,000 meters above sea level, our Solaris comes from one of the highest vineyards in the region. Our Solaris is a vibrant, aromatic white wine that reflects the purity of the mountain air and the intensity of the sun at high elevations. Resistant to disease, Solaris is our answer to sustainable viticulture in alpine conditions.
- **Cabernet Franc:** Our red wine is born from the recovery and careful restoration of **few historical pergola-trained vines** planted in 1930. These old vines, rooted deep in our family's history, offer a rare and elegant interpretation of Cabernet Franc – complex, structured, and full of soul.

Our Philosophy

We believe in **minimal intervention** in both the vineyard and the cellar. Our approach respects nature, the environment, and the rhythms of the seasons. All our work is done by hand, and we limit the use of chemicals to a minimum, ensuring a healthy, living soil and authentic wines that speak of their place.

Why Choose Us

- **Unique terroir:** High-altitude vineyards with extreme temperature variation
- **Limited production:** Each bottle is crafted with care and intention
- **Historical value:** Wines from pre-WWII vines restored with dedication
- **Sustainability:** Eco-friendly practices and a long-term vision
- **Authenticity:** A family project rooted in passion and tradition
