Country benchmarking data — Ireland

Family businesses are well-known for their ingenuity and ability to respond quickly to unexpected events. It was for this reason, that the Successful Transgenerational Entrepreneurship Practices (STEP) Project Global Consortium and KPMG Private Enterprise came together in June of 2020 to find out what family business leaders around the world were doing to respond to the impact of COVID-19. Data was collected in the Global family business survey: COVID-19 edition between June and October 2020.

A total of 2,493 family business leaders in Europe, the Americas, Asia and the Middle East & Africa completed the survey.

In this country benchmarking data report, we have highlighted the impact of COVID-19 and the actions that family businesses of varying sizes and in different sectors have taken in Ireland. Not only can you examine the actions that your business has taken compared to other family businesses in your own country, the data from other regions gives you the opportunity to benchmark and compare your results with businesses across Europe, the Americas, Asia and the Middle East & Africa. In doing so, you may discover additional insights and plans to consider for your business in the future.

Please be advised that this benchmarking report should not be read in isolation to the Mastering a comeback: How family businesses are triumphing over COVID-19, the Global family business report: COVID-19 edition.

What is the size of your business?

The family’s involvement: finding solutions inside and outside the business

When leaders began to grasp what the pandemic might mean for their companies, they realized that more involvement, input and quick decision-making was needed from the family. Some family members focused their efforts inside the company to help diagnose and solve

problems. Others looked outside for potential collaboration opportunities with customers, suppliers and other stakeholders to develop solutions together. The following graph highlights the type of involvement family businesses leveraged within Ireland and around the world.

Family involvement
