Our philosophy

Our philosophy is based on a single concept: we are more than just a manufacturer of carpets, we're a home decorator with the creativity to inspire beautiful interiors and transform the generic into magic.

Because people are seeking beauty, elegance, comfort and value for their homes our designers and technicians create collections that are modern, accessible and crafted to bring the utmost pleasure. And because your tastes are unique, we commit to bold concepts that bring the ultimate in sophistication to your floorcovering.

We are also acutely aware of the need to act for the good of the environment and to play our part in the common challenge to take care of our beloved planet. We place the environment front and centre of our dedication to creating beautiful floorcoverings, so you can enjoy your home decoration knowing you've also made a commitment to a better future.

At Louis De Poortere you will find rugs, carpets and stair runners, which you can freely mix and match to make your decorating Home Sweet Home experience a pleasure. Our passion is to offer you this pleasure.

Tradition Made Circular

Founded in 1929, Louis De Poortere has set the standard for excellence in machine-woven carpets and rugs, bringing Belgian craftsmanship and enduring quality to homes and businesses worldwide. As a family-owned company now in its fourth generation, Louis De Poortere blends the heritage of Wilton weaving with modern Jacquard flatweave techniques, creating innovative, trend-setting designs that redefine the art of rug-making. Each product is proudly crafted in Belgium, upholding our commitment to ethical production and supporting local artisans.

In 2023, Louis De Poortere launched the Ecorugs collection, a major step toward environmental responsibility. Using recycled polyester yarn—repurposed through our Take Care Program—the Ecorugs line is a testament to our vision for sustainable, circular design, demonstrating how tradition can adapt to support a healthier planet.

Living Beyond Walls

Indoor - Outdoor Harmony

As the lines between indoor and outdoor living continue to blur, the garden and terrace have evolved into more than just outdoor spaces, they have become true extensions of the home. These areas are no longer merely functional; they've transformed into an additional room, a seamless continuation of your interior, offering comfort, creativity, and a reflection of your personal style.

Recognizing this shift, Louis De Poortere is proud to announce that, starting in 2025, a curated range of our iconic Ecorugs will be available for outdoor use. Crafted with sustainability in mind and designed for both elegance and durability, these rugs bring the same timeless quality of your indoor spaces to your outdoor oasis, creating a harmonious flow between your interior and exterior lifestyle.

Why Ecorugs Outdoor?

Weatherproof and Durable

Specially designed to withstand sun, rain, and heavy use, our outdoor rugs retain their beauty season after season. Crafted with high-quality, robust materials, they ensure long-lasting color, texture, and performance.

Easy Maintenance

We know that outdoor living requires ease. Our Ecorugs are easy to clean and maintain – they can even be machine-washed or gently cleaned with a soft-pressure washer. This allows you to enjoy a beautiful, fresh-looking rug without the hassle – all year round.

A Sustainable Choice

As with our indoor Ecorug collection, we remain committed to a greener future. These outdoor rugs are made using recycled materials and are designed to be easily recycled at the end of their life cycle. This means you can combine style with sustainability.

Timeless Designs

The Ecorug collection features stunning designs that perfectly complement any outdoor space – from modern, minimalist terraces to cozy, rustic gardens. Each rug is a statement piece that brings style, comfort, and harmony to your environment.

Sol

MAD MEN COLLECTION

A tribute to the roots of creation. The SOL collection takes inspiration from a single, powerful image of the floor of our factory, worn by nearly a century of skilled hands. This rug captures the subtle imprints of time, where the patterns of workers, tools, and materials have left their mark on the very space where our rugs come to life.

Each design is a reflection of history. Intricate textures and marks that tell the story of craftsmanship, effort, and legacy. Woven with the same care and precision that has defined Louis de Poortere for nearly 100 years, SOL embodies the beauty of work itself. A living testament to the art of weaving, where every thread is a part of the story.

Suzani

ANTIQUARIAN COLLECTION

A vibrant reimagining of tradition. The Suzani collection takes inspiration from the symbolic colors and intricate designs of traditional Central Asian embroidery. Drawing from a rich tapestry of ancient motifs, our designers have carefully woven together elements from various classic Suzani patterns, creating a unique, contemporary interpretation.

Each rug is infused with the cultural significance of its symbols—circles for eternity, pomegranates for fertility, and geometric shapes for protection—combined in bold, harmonious designs. With a palette that reflects the rich hues of tradition, the Suzani collection brings timeless beauty and modern style into your space, offering a sophisticated blend of history and innovation.

ANTIQUARIAN COLLECTION

The Ushak design draws inspiration from the timeless designs of the Turkish Ushak tribe, known for creating intricate rugs used in both mosques and churches. These traditional patterns, rich in cultural significance, are reinterpreted here with faded colors, reminiscent of the later 20th-century versions that have weathered the test of time.

The result is a rug that combines historical depth with contemporary elegance, creating a beautifully aged aesthetic that complements any modern or classic interior. The Ushak design embodies the essence of tradition while offering a sophisticated, muted palette that adds warmth and character to any space.

FADING WORLD COLLECTION

The Medallion design reimagines an ancient design with a modern twist. The central medallion—an iconic motif of timeless elegance—is carefully woven into a distressed framework, allowing you to bring a piece of history into your home. The intentional fading of pattern sections, paired with vibrant color accents, gives the rug a contemporary yet vintage appeal, bridging past and present.

Crafted with over a century of expertise, each rug is woven on Jacquard Wilton looms using luxurious chenille yarns. Multiple layers of texture, intricate stitching, and distressing work together to create a true “vintage” look that speaks to both craftsmanship and design innovation.

The Coral design is a serene, subtle tribute to the calming beauty of the ocean's depths, inspired by the graceful imagery of José María de Heredia's poem:

"The sun under the sea, mysterious dawn,
Enlighten the forest of Abyssinian corals..."

This design evokes the tranquil beauty of coral reefs, with a refined blend of colors that mimic the delicate, understated hues of the ocean floor. Soft shades of purple, green, and pearl create an atmosphere of quiet elegance, reminiscent of the rich, vermiculated textures of coral in their natural habitat.

The Coral design enhances any space with its sophisticated, quiet beauty, bringing the mystery and calm of the sea into your home through a design that is both luxurious and tranquil.

YELLOW MEYER

The Module design draws inspiration from architectural principles, blending symmetrical and asymmetrical shapes to create a design rooted in the modernist movement, particularly the groundbreaking ideas of Walter Gropius from the 1930s. This design reflects the radical simplicity and functionality that defined the Bauhaus era.

The strong, geometric forms are further enhanced by a thoughtful combination of bold colors and warm materials, giving the rug a distinctive presence. Module is perfect for those who appreciate architectural influences and the structured beauty of space. The design radiates a timeless, secular aura, making it a striking addition to any modern or contemporary space.

TAPESTRY

Art Pieces

The rugs from our Gallery, Pop, and Cities collections are available as tapestries in a convenient 100 x 140 cm size, perfect for adding style and texture to any wall.

Installing your tapestry is simple and hassle-free. Each rug includes a complete installation kit and an easy-to-follow guide to help you showcase your tapestry effortlessly. Elevate your interior with the beauty and craftsmanship of Louis De Poortere in a whole new way.

Sustainability - A Step Closer to 100% Circularity

At Louis De Poortere, we believe that true luxury goes hand in hand with responsibility. Following the launch of our first responsible Ecorugs collection in 2023 with 20% recycled content, we are proud to announce that we have already doubled this recycled content to 40% for the 2025 collection.

Our rugs are not only 100% recyclable but also crafted with an ever-increasing share of recycled materials—a significant step toward our ultimate goal of creating products made entirely from recycled content. Each step forward reflects our unwavering commitment to leaving the world a better place than we found it.

The 2025 collection is a celebration of this journey. Every rug is more than just a design piece; it is a testament to thoughtful craftsmanship and our shared responsibility to care for the planet. Together, we are weaving a future that is as sustainable as it is beautiful.

100% PET

100% RECYCLABLE

100% RESPONSIBLE

Why use polyester?

Historically, we have used natural cotton within our rugs, but with the challenge to protect the natural world and provide a bright future for civilization, we believe it is important to make sure our products are more circular. Polyester gives us this opportunity through its long life and an ability to be returned to new rugs.

100%

Mono-material

Every part of our Ecorugs is made from polyester. By creating a 100% mono-material construction, we eliminate the need to separate materials and make it easier to recycle Ecorugs at the end of their life.

Longer product life

In terms of durability, polyester fibres are stronger and more durable than cotton. In fact, we compared the wear of new Ecorugs with a cotton construction and found that cotton wears out three times more under the same usage. The use of 100% polyester means a longer life for our rugs and less frequent replacement.

Recyclability

Polyester is endlessly recyclable without degradation in quality, giving us the potential to adopt a circular product model in the future. Recycling polyester lets us extend the life of the materials we use, reducing demand for new raw materials.

Sustainability with style

When it comes to beautiful products to decorate your home, we know you desire exceptional quality and a uniquely personal style. We also know that the future of the planet is a worry for us all. Our rugs consider both, bringing you an eco-friendly alternative that moves towards circularity and which doesn't compromise style. You can enjoy the beauty of your Ecorug knowing you're choosing a better future.

A fibre of the future.

As a synthetic material, it can be recycled efficiently and infinitely, without compromising its quality throughout its life cycle.

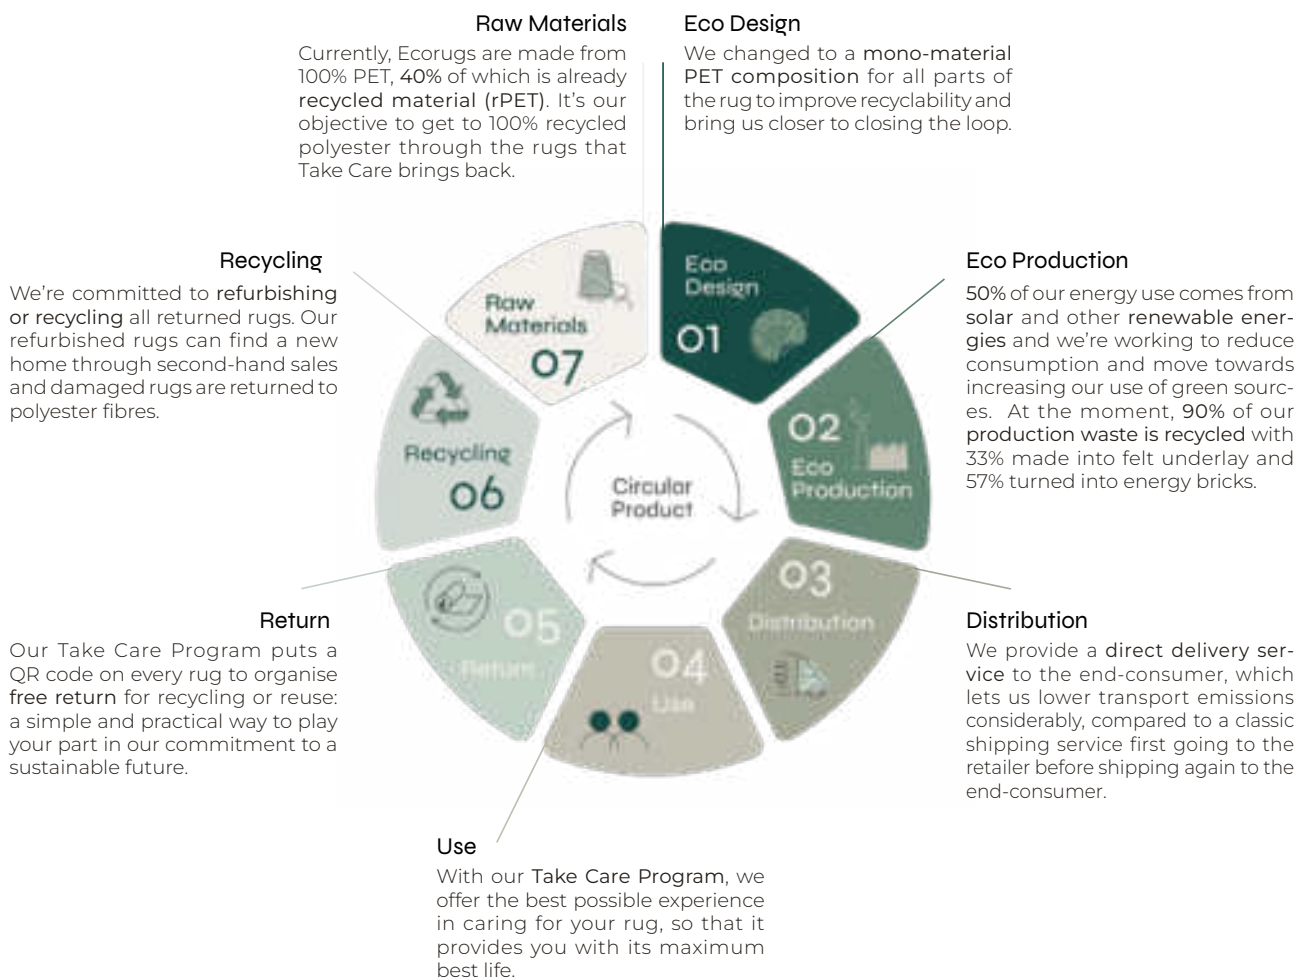

We're aware of the concerns associated with the production of virgin polyester derived from petroleum, a non-renewable resource. However, alongside our Take Care Program to make recycling a shared responsibility, our Ecorugs offer a move towards a sustainable solution by extending polyester's useful life and reducing our demand on these resources.

Polyester has exceptional recycling properties and for every kilogram of polyester we recycle, we get one kilogram back. This means no waste and every gram of material is used efficiently. Also, with polyester's exceptional durability, each rug possesses a long life, no matter how many times it finds a new home. Polyester is truly a fibre of the future.

A life more circular

We believe that closing the loop with our mono-material construction, gives us the best opportunity to lower our footprint, and this is how we create a more circular life for your Louis de Poortere Ecorug:

Take Care Program

Take Care is our way to make sure that we share responsibility in extending the life of your Ecorug and reclaiming it for recycling. Making returns easy through Take Care is what's needed to make the recycling of Ecorugs a possibility: It's easy for you and puts us in control of the process.

Through Take Care, we can both share a role in giving Ecorugs a circular life.

01. Maintenance

Keeping your Ecorug looking new is one of the best ways to give it a long life. That's why we've made every Ecorug machine washable and set out the perfect way to care for your new rug in our Take Care guidance.

02. Return

Once your Ecorug has reached the end of its time with you, it's easy to return it. Use the QR code and serial number to arrange a free* return. It's a simple way to contribute to a more sustainable future.

03. Reuse or Recycle

Once your Ecorug finds its way back to us, we assess it and decide what to do. Rugs in good condition are cleaned, reconditioned and are put up for second-hand sale. Those not able to be sold are sent to our recycling network to be returned to raw polyester material.

*Only free return available for EU countries at this moment (UK incl). For updates, please check the website.
